

Choosing an IPTV App

To get started, you'll need to download an IPTV app from your Smart TV's App Store. Here are some popular options:

1. [IPTV Smarters Pro](#) (Free for life)

- **Features:** This app has a great user interface and is free to use. It's easy to set up since you don't need to upload your playlist to a different site. However, it has some limitations.

2. [HOT IPTV](#) (30 days trial then 4.99 a year)

- **Recommendation:** We recommend HOT IPTV for its smooth and easy-to-use interface. You can try it for free for 14 days, then it's just 5 euros per year. For more details, check out our [blog post](#).

3. IBO Player / [IBO Player Pro](#) (7 days trial then 10 dollars lifetime)

- **Description:** A popular app with many users. It may experience downtime occasionally but is generally reliable.

4. Other Options (Available on older smart tvs)

- **Apps:** Smart One IPTV, Duplex IPTV, Net IPTV, SS IPTV, Smart IPTV
- **Note:** These apps have similar setups and follow the instructions below. Be aware that some have limited memory (Smart IPTV).

Setting Up IPTV Smarters Pro on Smart TV (Free)

To install **IPTV Smarters Pro** on your Smart TV, follow these steps:

1. **Download the App:** Go to your TV's App Store and search for IPTV Smarters Pro.
2. **Install and Launch:** Once installed, open the app.
3. **Enter Xtream Codes API:** Use the login details provided in your email. Make sure to use the server link specified for this app, as noted in your email.

- **First Box:** You can put ANYTHING
- **Second Box:** Your **Username** (Found on EMAIL/WhatsApp)
- **Third Box:** Your **Password** (Found on EMAIL/WhatsApp)
- **Forth Box: Server URL** (Found on EMAIL/WhatsApp) – Always Starts with HTTP://

If it doesn't work, ask your IPTV provider for a **DNS link** that is compatible with the app, as not all links will work. Also, ensure that the links are in the format `http://`.

Setting Up Any IPTV Player App on Smart TV (Paid)

For this tutorial, we'll use HOT IPTV, but you can apply the same process to any other IPTV app.

- Almost all Smart TV apps are paid, except for IPTV Smarters Pro, which can be a bit clunky and occasionally glitches. You might consider opting for a more reliable option like IBO Player Pro or HOT IPTV.
